Aayush Jaiswal

+91-628495306 — aayush.jaiswal1917@gmail.com — LinkedIn — GitHub
Chandigarh, India

Summary

B.Tech Computer Science Engineering (AI) student with strong interest in Artificial Intelligence, backend systems, and automation. Experienced in Python scripting, REST API integration, and Git workflows. Focused on building real-world automation solutions and scalable backend systems.

Education

Chandigarh University 2025 – 2029
B.Tech in Computer Science Engineering (Artificial Intelligence)
St. Soldier Divine Public School 2024 – 2025
Class XII (PCM) — 92.3%
GEMS Cambridge International School, Hoshiarpur 2022 – 2023
Class X — 96.8%

Projects

Voice-Controlled PC Automation System
GitHub

- Designed and developed a voice-controlled automation system to execute operating system commands using Python.
- Implemented speech recognition to process voice inputs and trigger system-level actions.
- Integrated REST APIs for automating WhatsApp messaging and email communication.
- Built scalable automation workflows to handle multiple tasks efficiently.
- Reduced manual effort and improved productivity through intelligent task automation.

IDEA 2.0 Hackathon Project (Collaborative)

- Collaborated in a team-based hackathon environment to design and develop an innovative solution under time constraints.
- Contributed to idea development, system design, and implementation of core features.
- Applied problem-solving and rapid prototyping skills to build a functional project.
- Demonstrated teamwork, communication, and adaptability in a competitive setting.

Technical Skills

Languages: Python, C, C++
Web: HTML, CSS, JavaScript
Tools: Git, GitHub, Netlify
Concepts: REST APIs, Automation, Backend Development

Certifications

- Microsoft Azure Certified — Cloud fundamentals, Azure services, AI/ML tools
- Coursera AI & Machine Learning Certification

Achievements

Solved 100+ Data Structures and Algorithms problems on coding platforms

Additional Skills

Team Collaboration, Analytical Thinking, Problem Solving
